

IMPORTANT INFORMATION ABOUT YOUR PRESCRIPTION DRUG COVERAGE

It is very important for you to read this information carefully. **SAVE ALL** information you receive from CRS or UnitedHealthcare® about your retiree prescription drug coverage from CRS for future reference.

Starting January 1, 2016, **UnitedHealthcare® MedicareRx for Groups (PDP)** is the prescription drug plan for Medicare-eligible members who participate in CRS retiree health coverage.

Key points you need to know

- UnitedHealthcare MedicareRx is a Medicare Part D prescription drug plan with additional coverage provided by CRS. This additional coverage means that you have **more coverage than the standard Medicare Part D plan**.
- **You don't have to do anything** to enroll in the plan. You will automatically be enrolled by CRS. You will be contacted if additional information is needed to process your enrollment in Medicare Part D plan.
- You will pay the **same co-payments** that you currently pay under your Optum prescription drug plan.
- You will **pay no more than your CRS co-payments** through all the Medicare Part D coverage stages.
- You will have **no coverage gap**, also known as the Medicare Part D "Donut Hole."
- UnitedHealthcare MedicareRx has over **65,000 network pharmacies**, including national and regional retail pharmacy chains as well as independent neighborhood pharmacies. Your UnitedHealthcare MedicareRx member ID card will also allow you to use the OptumRx preferred mail service pharmacy.
- You may be able to get up to a **90-day supply of your medication** at any UnitedHealthcare MedicareRx network retail pharmacy subject to three times the monthly co-payment amount.
- If your **covered spouse and/or dependent child is not eligible for Medicare**, he or she will continue to be covered on the current prescription drug coverage through OptumRx.
- You will receive a **new ID card from UnitedHealthcare MedicareRx**. Do not use this new ID card until January 1, 2016.
- **If you cannot be enrolled or decide not to be enrolled in UnitedHealthcare MedicareRx, you will lose your prescription drug coverage from CRS.** You can re-enroll in the plan, but will have to wait until the next annual enrollment period. If you are the retiree **and** you decide not to be enrolled in the plan, your covered spouse and/or covered dependent children will also lose their prescription drug coverage.

What you need to do

You don't have to do anything to be enrolled in the plan. You will automatically be enrolled in the plan. You will be contacted if you need to provide information to process your enrollment.

There are some things that you should do, or may need to do to make sure you have the medications you need:

- **Open and read any information you receive from UnitedHealthcare MedicareRx.** You will be receiving letters, statements about your drug costs, and other information required by Medicare. Some of the materials will be for your information, but there may be letters that require you to take an action in order to keep your coverage.
- **Save all information you receive from UnitedHealthcare MedicareRx** for future reference.
- **Get your prescriptions refilled.** If you will need to refill your prescription in early January, you may want to obtain your refill before January 1, 2016, to make sure you have enough of your medication during the transition to UnitedHealthcare MedicareRx.

Any eligible mail-order prescriptions with refills remaining will be transferred automatically from Optum to UnitedHealthcare MedicareRx. If you have a prescription with refills remaining at a retail pharmacy, you need to go to the pharmacy and show your new ID card after January 1, 2016. New prescriptions may be required for certain medications.

- **Obtain a new prior authorization** after January 1, 2016, if you currently are taking a prescription drug that requires prior authorization through your current Optum plan. Your Optum prior authorization will not be transferred to UnitedHealthcare MedicareRx. You may want to get your prescription refilled before January 1, 2016, through your current Optum plan. This way, you have time to get a new prior authorization with UnitedHealthcare MedicareRx.
- **Check *The Plan Drug List* and *Bonus Drug List* to see if your drug is covered.** These lists will be included in the Plan Guide from UnitedHealthcare MedicareRx. You will also receive an *Abridged Formulary* and *Bonus Drug List* with your Welcome Guide.

These are the lists of drugs covered by the plan. *The Plan Drug List* and *Abridged Formulary* are the lists of the most commonly used drugs selected by UnitedHealthcare MedicareRx and covered under the Medicare Part D portion of the plan. The *Bonus Drug List* is the list of the drugs covered through the additional coverage provided by CRS. If you do not see your drug on these lists, call UnitedHealthcare MedicareRx Customer Care to see if your drug is covered.
